A highly motivated Computer Science graduate with a passion for software development. Currently enrolled in a 6 months **Full Stack Software Development** bootcamp by upGrad(Golden Gate University), seeking a challenging role that will allow me to apply the latest industry knowledge and practices.

🏅 PROJECTS

1. Ecommerce Website - https://billionnairescart.netlify.app/
- Developed a fully functional online store that enabled users to browse, search, and purchase products.
- Implemented with **ReactJS**, JavaScript, CSS, and HTML.
- Utilized React hooks like **useState()**, **useContext()**, and **createContext()** to manage the application's state and enhance data flow.
- Enhanced user experience with more than 4 sorting options for improved navigation.

2. Random API Website - https://random-api-project.netlify.app/
- Developed a dynamic website using **ReactJS**, JavaScript, CSS, and HTML to fetch data from 6 public APIs on button clicks.
- Demonstrated expertise in React components and state management, resulting in a seamless user experience.
- Increased website engagement through dynamic content updates and improved performance.
